As Usual Air Is Hot in Texas

PRESIDIO, Tex. (P) — Shucks it was only 107 so anybody could tell the reporter was kidding when he asked how people were standing the heat on the first day of summer.

"Aw, this isn't hot," said Oliver Harper, 54, the hard-ware man and weather observer, "Lots of times it gets up around 112 or 114."

In fact it got up to 111 June 10, when people most places were still wearing suits to work. So you can see summer started off downright cool yesterday, especially in comparison with places like Phoenix, Ariz., where it was 111. Presidio often is the hottest place in the country,
